## 📄 Summary

---

Results-driven Senior iOS Engineer with 9+ years of hands-on experience in building and scaling production-grade iOS applications. Led development efforts and collaborated effectively with cross-functional teams to deliver high-quality, user-focused mobile solutions that improve user experience and deliver measurable business impact.

## 🧠 Skills

---

**Technical** — Swift, SwiftUI, Combine, UIKit, MVVM/MVC, Clean Architecture, Core Data, REST APIs, CI/CD, Git, Xcode, VSCode, Unit Testing, Performance Optimization, Memory Management, JIRA, Appium.

**Core Strengths** — Problem Solving, Cross-functional Collaboration, Ownership & Delivery, Agile Development.

## 📁 Work Experience

---

- 12/2024 – Present      **Ayrin Digital Pvt Ltd, Senior Software Engineer**
- Leading iOS development for scalable, high-performance client applications.
  - Collaborating with cross-functional teams to deliver quality features.
  - Enhancing performance and code quality through improved architecture and practices.
- 08/2023 – 11/2024      **Atomic Dev, Senior Software Engineer**
- Contributed to the Atomic Habits app based on a New York Times bestselling book.
  - Built features for Apple Watch, iOS widgets, and watchOS widgets.
  - Improved code quality and development workflows with a focus on maintainability.
- 10/2022 – 08/2023      **Expedia Group, Mobile Engineer II**
- Contributed to the flight booking domain in the Expedia iOS app.
  - Built and improved baggage and seat selection flows.
  - Enhanced performance through refactoring, profiling, and resolving memory issues (retain cycles, leaks).
  - Followed best practices for scalable architecture and code quality.
- 03/2019 – 09/2022      **Mutual Mobile, Software Engineer**
- Built and delivered multiple iOS applications across diverse domains.
  - Gathered requirements and worked closely with clients and internal teams.
  - Designed and developed end-to-end applications, including App Store releases.
  - Improved scalability through better architecture and reusable components.
  - Led the iOS development across multiple projects, ensuring smooth development and delivery.
  - Delivered projects with a strong focus on quality and timelines.
- 03/2017 – 02/2019      **Relfor Labs Pvt. Ltd., Software Engineer**
- Built multiple iOS applications from scratch using Swift and UIKit.
  - Led modules and contributed to overall iOS development efforts.
  - Designed and developed custom map navigation features.
  - Integrated APIs in collaboration with backend teams to ensure smooth functionality.
  - Introduced Appium for iOS testing and trained the QA team on its usage.

## Projects

---

**Supra Human** - Fitness training app for guided workouts and user engagement.

**Atomic Habits App** - Habit-building app based on a New York Times bestselling book.

**Expedia App** - Travel app focused on flight booking and trip planning.

**Dealerware (formerly Silvercar)** - Premium car rental platform for Audi vehicle bookings.
